

8-Week High-Intensity 3-Day Gym Plan

User: 5'7", 58 kg, skinny-fat

Goal: Lean, proportional, V-shaped body

Schedule: Mon (Pull), Wed (Legs), Fri (Push/Shoulders)

Day A - Pull / Back Width & Thickness

1. Warm-up: 5-8 min row + band pull-aparts 2x20
2. Weighted Pull-ups / Lat Pulldown: 4x6-10, rest 90s
3. One-arm Dumbbell Row (wide elbow): 3x8-12 superset with Face Pulls 3x15, rest 60s
4. Seated Cable Row: 3x8-12
5. Prone Y-Raises: 3x12-15
6. Core Superset: Hanging Leg Raises 3x10-15 + Plank 3x45s
7. Optional Metabolic Finisher: 8-12 min EMOM 10 KB swings + 6 burpees

Day B - Legs & Posterior Chain

1. Warm-up: 5-8 min bike + hip mobility
2. Romanian Deadlift: 4x6-10
3. Front/Goblet Squat: 3x8-12 superset with Walking Lunges 3x12 steps each leg
4. Hip Thrust: 3x8-12
5. Calf Raises: 3x12-20
6. Optional Light Back/Posture: Single-arm DB Row or Face Pulls 2x15
7. Optional LISS Finish: 10-15 min bike/walk

Day C - Push / Shoulders & Upper Chest

1. Warm-up: 5-8 min treadmill + banded shoulder mobility
2. Standing Dumbbell or Barbell Overhead Press: 4x6-10
3. Incline Bench Press: 3x8-12 superset with Lateral Raises 3x12-15
4. Chest-Supported Rear Delt Flys / Reverse Pec Deck: 3x12-15
5. Weighted Dips / Close Push-ups: 3x8-12
6. Optional Light Shrug (upper traps, every 10-14 days): 2x12
7. Core: Cable Woodchoppers 3x12 each side

Session Tips:

- Supersets to keep intensity high
- Rest 60-90s for compounds, 30-45s between exercises in supersets
- Tempo: 2s concentric / 2s eccentric, 1-2s squeeze on isolations
- Progressive overload: +1-2 reps or increase weight when top rep range is achieved

Trap Guidelines:

- Upper traps: light & infrequent, avoid heavy shrugs
- Mid/Lower traps: train frequently via rows, pull-ups, face pulls, Y-raises

Cardio:

- 1-2x week HIIT (10-12 min) or 2x week LISS (20-30 min)
- Optional 20-min bodyweight circuit on off days

Nutrition:

- Protein: 1.8-2.2 g/kg (~105-127 g/day)
- Slight caloric surplus if progress stalls: +100-200 kcal training days
- Carbs around workouts, fats 20-30% calories
- Hydration & 7-9 hours sleep

8-Week Progression:

- Weeks 1-2: learn movements, moderate intensity
- Weeks 3-4: increase intensity, add small weight increments
- Weeks 5-6: add 1-2 sets on back & shoulders, slight metabolic finisher
- Weeks 7-8: fine-tune form, progressive overload, optional cardio for leaner waist

Printable Notes:

- Track weight, reps, sets weekly
- Take front/back/side photos every 2 weeks
- Focus on mind-muscle connection for lats, shoulders, and core
